

Rick Evans Press Release

In a world enmeshed in the concerns of managing the day-to-day difficulties we all encounter, many have become lost to an image driven society. These hopeless faces belong to parents, husbands, wives, children, pastors, doctors, and business owners. Success is being redefined, and the quest for it has driven many to a place of desperation. We can live without water for a several days, we can live without food for a little while, but we cannot extend life for one additional second without hope.

Living In Faith has been organized to bring healing, restoration, and reconciliation to the body of Christ. As part of an extraordinary team, Rick contributes his teaching *and administrative* gifts to help broken lives *damaged by the devastation of failed and unfulfilled expectations* to experience the power that only comes through God's Word and His unfailing love.

Rick has traveled around the world as part of Franklin Graham's crusade team and has been part of several organizations whose mission it was to reach the world with the Gospel of Jesus Christ. Rick's legacy includes an earned degree in Human Development, lead singer for the *Classic Imperials*, and President of his own company – Impact Inc., a church consulting and counseling organization.

Through many years of experience Rick Evans is able to navigate through denominational lines and bring a clear message of hope to a world lost in the effects of an immoral and declining society. Rick's ability to communicate has allowed him the freedom to fill many pulpits as a speaker and singer. From a cross denominational perspective, he is able to teach the truths in God's Word to those who are eager to be restored from the devastation life has levied against them.

Familiar to the public from his many personal appearances, and both radio and television, Rick continues his quest for excellence through the many avenues God has gifted him in... As a consultant and counselor he is effective. As a pastor/evangelist he is dedicated to see the restoration of God's children to complete mental, spiritual, and physical health.

**What would you give for one day of Peace?
What would you exchange for a day of total Joy?**

"I want you to experience the freedom God intends for all His children to enjoy" – Rick Evans
